Tender text

Touch-free dispenser for foam soap or liquid soap/sanitizer. Housing in brushed, stainless steel. Capacity: 0.8 dl. Battery operated. Net weight: 0.7 kg.
H: 270 mm, W: 122 mm, D: 106 mm

Standard colour

Prod. No. 846: Brushed stainless steel with top/bottom in grey plastic.

Prod. No. 847: Brushed stainless steel with top/bottom in black plastic.

Installation

Wall-mounting.

Power source option:

6 Vdc transformer for 230V

Activation

Dosage is released when hand is held approx. 5 cm underneath the dosage nozzle. Soap dosage is released once only.

A blue LED indicator lights up when the hand is registered by the sensor and dosage is activated. Also, the smart LED indicator will flash to indicate status such as low battery for the soap dispenser.

Access to the internals of the dispenser is only possible with a special key supplied with the unit.
